- Apparel, sport shoes and bags
- Furniture, carpets and pillows
- and many more...

Where PET bottles go after we separate them in the recycling bin?

Here are some examples of products made from recycled plastic bottles:

- PET Bottles
- PET Packaging
- Polymer
- PET Resin
- PET is 100% recyclable and can be used to a wide range of products.

The bottles are cleaned and melted at 240°C.

Indorama Ventures buys post-consumer PET from waste suppliers.

Let’s start recycling PET bottles!
